A FUTURE ALWAYS NEEDS A PAST

This quote by astute and humorous philosopher Odo Marquard is particularly apt for the Kisag brand.

Kisag products have been used in almost every Swiss household for cooking, preparing, frying or seasoning for more than 76 years. Even beyond Swiss borders, Kisag has become established as a brand that stands for quality, reliability, socially responsible value creation and useful kitchen inventions.

KITCHENWARE – IT'S WHAT WE DO

Kisag AG has long been committed to local production in Switzerland, sustainability and extensive cooperation with sheltered workshops. The Artisan peeler is a good example of the company's sustainable credentials: 100 % SWISS MADE from organic cellulose plastic with a recyclable blade and packaged and assembled in sheltered workshops in the region.

The company recently introduced a clear, well-defined brand image with a modern, appealing and uniform brand identity, contemporary packaging, a professional website, vibrant and informative social media channels and, last but not least, a well-structured, well-presented product catalogue, which you will find enclosed.

We hope you enjoy the read!

Through our products, we aim to give users 'the joy of cooking' and thank you, the customer, for your loyalty and support.

Yours,

Kaspar Kellerhals, CEO

ALL OF OUR NEW

SPICE UP YOUR SERVING TABLE!

Variety is the spice of life: this is certainly true in the kitchen. With our new additions, we are breathing new life into long-established rituals, making cooking at the table a very special occasion.

Whether a spicy pot-au-feu or finely aromatic fondue Chinoise is on the menu, our fondue pots are so versatile you'll never be bored. And if you are looking for an alternative to the classic cheese fondue or raclette, simply reach for the grill pan and rechaud, and enjoy your very own portable BBQ station. For even more joy and creativity when cooking!

DIE KISAG WHIPPER

BRINGING VARIETY TO THE KITCHEN: THE KISAG WHIPPER – THE KISAG WHIPPER BRINGING A BREATH OF FRESH AIR TO THE KITCHEN FOR OVER 60 YEARS.

Who invented it? For the Kisag whipper, this question can be answered quite clearly with Walter Kissling. With his invention, the founder of Kisag AG succeeded in creating a kitchen innovation which has been a sensation far beyond Switzerland.

With our whippers, you literally step on the gas in the kitchen. Our whippers aren't just popular with professional chefs, they are also loved by ambitious amateur cooks. And these creative little helpers also offer many advantages to fans of quick cuisine. Just insert the charger, shake a few times – and the contents of the cylinder become a culinary delight.

The Kisag whipper allows you to prepare whipped cream and many other blended food creations, through to fine culinary espuma foams.

These days, the Kisag whipper is primarily appreciated for its versatility. And it is an indispensable kitchen helper for all gourmets who enjoy experimenting with culinary creations or like to surprise their guests and family members with original dishes. The pressure in the appliance intensifies and emphasizes the flavours of the ingredients. It is hardly surprising that more and more star chefs are taking advantage of this unique benefit for their creations.

KISAG WHIPPER BASIC

0.5 L

Entry-level model for cold desserts | Art. 1523

Kisag Whipper BASIC: Say goodbye to hand whisks! The Kisag Whipper BASIC has been designed especially for preparing cream and cold cream-based desserts, like a vanilla mousse, for instance. Our tip for even more delicious variety: Enrich the cream with syrup, juice or finely puréed fruit, for example, before foaming. And if you don't want to eat it all at once, you can simply store the Whipper BASIC in the fridge until later. The remaining contents will stay fresh for up to 10 days without any additional preservatives.

THE KISAG WHIPPER BASIC HIGHLIGHTS

- Fresh cream and cold desserts prepared in seconds
- the best, natural flavour
- the contents stay fresh in the fridge for up to 10 days
- 0.5 litre capacity, also suitable for larger families
- includes 2 decoration nozzles, cleaning brushes and recipe ideas
- only fill with cold liquids
- top not dishwasher safe
- Kisag whipper chargers | Art. 1007/1009

KISAG WHIPPER PROFESSIONAL

0.5 L

All-rounder – for warm and cold creations | Art. 1640

Bringing variety to the kitchen. The Whipper PROFESSIONAL is one of the most versatile cream dispensers in Kisag's range. The all-rounder allows you to prepare warm and cold dishes such as cream soups, sauces, mousses and espumas. In the stainless-steel whipper all-rounder, you can prepare airy and light espumas and mousses, fine finger food, warm and cold sauces, thickened cream soups and brilliant desserts. And cream too, of course. Its versatility makes the Whipper PROFESSIONAL just as popular among hobby chefs as in high-end gastronomy. Time and time again, renowned chefs like Rolf Caviezel use the professional cream whippers from Kisag to create new features in molecular cuisine.

THE KISAG WHIPPER PROFESSIONAL HIGHLIGHTS

- for cold and warm applications
- made of odourless and durable stainless steel
- maximum fill volume: 0.5 L
- 1 whipper chargers per filling
- completely dishwasher safe
- fixed outlet valve locked into position
- for professional use – and also for your home
- includes 3 decorative nozzles, cleaning brushes and recipe ideas
- many other accessories available separately – for even more possibilities
- Kisag whipper chargers | Art. 1007/1009

KISAG WHIPPER PROFESSIONAL

1 L

How about a little more? | Art. 1740

Kisag Whipper PROFESSIONAL: Bringing variety to the kitchen. The Whipper PROFESSIONAL is one of the most versatile cream dispensers in Kisag's range. The all-rounder allows you to prepare warm and cold dishes such as cream soups, sauces, mousses and espumas. And all this with absolutely no stress, and no last-minute preparation: You can take your time to prepare your foam creations, and add them to the Kisag Whipper PROFESSIONAL plenty of time before consumption. If the contents are to be eaten cold, simply place the whipper and its contents in the fridge. If you are preparing sauces and soups and wish to store them in the Whipper PROFESSIONAL, the device can be placed in a bain-marie at a temperature of up to 75 °C. This keeps the contents warm until it's time to serve.

THE KISAG WHIPPER PROFESSIONAL HIGHLIGHTS

- for cold and warm applications
- made of odourless and durable stainless steel
- maximum fill volume: 1 L
- 2 whipper chargers per filling
- completely dishwasher safe
- fixed outlet valve locked into position
- for professional use – and also for your home
- includes 3 decorative nozzles, cleaning brushes and recipe ideas
- many other accessories available separately – for even more possibilities

KISAG WHIPPER THERMO

0.5 L

**With thermo function –
for warm & cold creations** | Art. 1840

Kisag Whipper THERMO: Experience intense taste. A light and creamy high-end foam, like you would see on your plate in an award-winning restaurant – you don't have to be a professional to make it! With the Kisag Whipper THERMO, fine creations are just as easy to make as desserts, mousses or whipped cream.

Another great advantage of the Kisag Whipper THERMO: The warm or cold espuma can be kept at temperature in the bottle for up to 4 hours. And if you eventually run out of culinary ideas or are looking for inspiration: Just click to see our recipe gallery.

THE KISAG WHIPPER THERMO HIGHLIGHTS

- suitable for cold and warm applications
- keeps the contents warm or cold for up to 4 hours thanks to the thermal effect
- designed for professionals and passionate hobby chefs
- maximum fill volume: 0.5 L
- made of odourless and durable stainless steel
- double-walled and vacuum insulated – for the best thermal performance
- completely dishwasher safe

KISAG WHIPPER

HOW IT WORKS

1.

Pour the liquid into the cylinder up to the level.

2.

Screw the decoration nozzle onto the top of the appliance – max. 4 turns.

3.

Screw the top of the appliance onto the cylinder.

4.

Insert a gas cartridge into the charger holder and push it into the filler valve of the whipper. Within a few seconds, the gas enters the cylinder with a quiet hiss. You're done!

5.

Shake the whipper vigorously approx. **8-10 times**. Ideally, use both hands.

6.

Hold the appliance upside down, use the lever and enjoy the light, fluffy foam. Important: The cylinder and decoration nozzle should be held vertically and downwards.

WHIPPER

1.3

WHIPPER CHARGERS

KISAG WHIPPER CHARGERS: WITH PATENTED SAFETY SYSTEM

A perfectly coordinated whipper charger system: While chargers from other suppliers are screwed onto the whipper, the chargers from Kisag can be put into the head of the siphon through the unique safety valve.

The gas is therefore released quickly and safely through the non-return valve. The whippers are also efficient to use: With the whippers and chargers from Kisag, you can make up to 3 litres of whipped product from 1 litre of liquid. The chargers are made from 100% recyclable steel and contain flavourless nitrous oxide (N₂O), which does not affect the flavour of the food. The pressure and the foaming actually intensify the flavours of the filling.

GOOD TO KNOW

All the Kisag whippers and Espuma appliances supplied in Switzerland match with the Kisag charger system. Accordingly, the Kisag chargers can only be used with Kisag products.

KISAG WHIPPER CHARGERS

The unique safety valve on the Kisag whipper chargers releases the gas quickly and safely. For uniquely light foams. The Kisag chargers contain 7.5 g pure N₂O and are weighed individually before packaging to guarantee consistent results. You can save money and time by creating up to 20 % more portions thanks to the maximum whipping volume, and less of the contents left in the appliance.

THE KISAG WHIPPER CHARGERS HIGHLIGHTS

- suitable for all Kisag whipper appliances
- perfect results and a variety of creations that just can't compare!
- 1 charger is required per 0.5 litre application
- 7.5 g pure nitrogen per charger – with fill guarantee
- produced according to HACCP and the strictest hygiene standards – no oily residues, guaranteed!
- recyclable, high-quality steel

RECHAUD LONGFIRE

RECHAUD LONGFIRE: LONG BURNING TIME, ELEGANT VISUALS

A rechaud that finally lives up to its name! With its integrated gas burner, the compact rechaud LongFire from Kisag has a particularly long burning time and is a genuine all-rounder. Whether it is for cooking and frying at the table, for fondue or raclette, as a table grill or simply for keeping food warm.

The appliance is robust and stands securely on every surface. The refilling with the original Kigas gas cans takes a matter of seconds, and the 1.4 kW output is more than enough for all kinds of fondue. You don't even need to turn it up to the maximum for a fondue bourguignonne. Another advantage in comparison with a paste or spirit burner: the flame is odourless and precision-adjustable. And with a burning time of approx. 2 hours on medium power, there is certain to be enough for the late arrivals to your party. Thanks to its smooth surface, the rechaud is easy to clean, and can also be stacked for better storage. Incidentally: Because the LongFire doesn't require a cable, you can heat up your culinary creations anywhere – including the garden or the camp site.

RECHAUD POWERFIRE®

HIGH PERFORMANCE TABLETOP COOKER – DESIGNED FOR THE CATERING INDUSTRY, AT HOME EVERYWHERE

Far more than just a simple rechaud. A mobile cooking system which offers a wide range of culinary options to restaurateurs, caterers and hobby chefs, not to mention city dwellers with balconies and campers who like to travel.

The heart of the portable tabletop cooker is on its inside: the Kisag gas burner, which can be operated safely and with precision control. And which also impresses due to its powerful heating capacity (2.2 kW). The PowerFire® – its name says it all – brings cold water to the boil just as quickly as a conventional hob. With its powerful, odourless flame, it is suitable for cooking and frying on the table, for preparing food in the wok, for making coffee, for all kinds of fondue and raclette, for flambéing, as a table grill or simply for keeping food warm.

Not only is the PowerFire® extremely versatile, it can also be used anywhere because it is power cable-free: at home at the dining table, as well as in the garden or at the camp site. The burning time of the rechaud is approximately 2 hours at medium power. And the longer the flame burns, the cooler the burner tank gets. Before its next use, the PowerFire® can be refilled quickly and easily with the Kigas gas cans.

Our tip for a smooth work flow, especially in the catering industry and for larger-scale events: Because the Kisag gas burners are completely leak-proof, they can be filled in advance and kept ready for use. This saves time and stops the «heating chain» from being interrupted.

RACLETTE PLATE

for raclette | Art. 2321

Aside from fondue, raclette is the perfect meal for long winter days or parties. Anything goes, as long as it tastes good!

Finely chopped meat, bacon, sausages, fish, vegetables or fruit, for instance. Raclette cheese is then added on top, which melts under the raclette grill. Great side dishes include boiled potatoes, baked potatoes, fresh mushrooms, corn, silver onions, finely chopped chillies, tomatoes, gherkins and much more. The question of whether raclette meal is eaten directly from the pan or served on a plate is also a matter of taste. One thing is for certain, however: you won't be running out of ideas so quickly with this grilling fun. This raclette plate is especially suitable for use on rechauds. The nubs on the underside of the plate create a non-slip surface.

Also suitable for Kisag LongFire rechauds! (Art. 2340)

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 25 cm, length 30 cm, height 1.5 cm

RECHAUDS FROM KISAG

WITH THOUGHT AND SYSTEM – SEVERAL BURNERS, BUT ONLY ONE SWISS ORIGINAL

The burner heats away under the fondue set while meat or vegetables are cooked in style in simmering oil or soup. However, despite the cosy atmosphere during such enjoyable times, the subject of safety should never be neglected when cooking with an open flame: Does the pan have a secure stand on the corresponding rack? Is the rechaud easy to control and close? And what about the fuel that it contains? After all, the burner in the rechaud has to keep the contents of the pan hot – whether cheese, fat, oil or soup – and/or the ingredients on the table grill hot for a long time.

An electrical burner is one way of cooking at the table, but only when a convenient power socket is available. A paste burner isn't particularly convenient to use, its heat output is pretty much impossible to adjust, and it takes a long time to heat up – and the fuel barely lasts for an hour of cooking fun. The spirit burner is a cheap alternative to the paste burner, but it also takes a long time to heat up and comes with critical emissions.

That still doesn't mean that you have to compromise when buying a rechaud, though! For those who want to play it safe and stay flexible but want the maximum, controllable heating output at the same time, the rechauds from Kisag are highly recommended. The portable rechauds contain an integrated safety gas burner and offer varied use – as a mobile kitchen when camping, for instance. They heat up in no time with plenty of power, stay hot for a long time, are infinitely adjustable, and can be switched on and off at the touch of a button.

KISAG CAQUELONS

FONDUE CHAT WITH KISAG – CAQUELONS FOR MELTING AWAY

Classic cheese fondue is an age-old treat in Switzerland. In the old days, farmers would melt dried cheese in a pan over a fire and dip pieces of bread in it, a snack that became known as fondue.

This simple meal made from leftovers soon became a Swiss national dish and a source of inspiration all over the world. With the development of various recipes, such as the Moitié-Moitié, the Neuchâteloise and Fondue aux Tomates, when it comes to fondue, there is no space for boredom. And if you eventually get tired of all the cheese, try adding a fondue bourguignonne or a fondue chinoise to your repertoire. Either way, with the caquelons from Kisag, you are excellently equipped for every fondue party.

On this note, here's wishing you "en Guete"!

RACLETTE – A SOCIABLE TABLETOP GRILL

A MEAL IN A PAN – TABLETOP GRILLING IS SO VARIED

In addition to fondue, raclette is the perfect meal for long winter's days and sociable get-togethers. And when everyone puts their favourite ingredients in their raclette pan and puts it on the grill. Anything goes, as long as it tastes good: finely chopped meat, bacon, sausages, fish, vegetables or fruit, for instance. Raclette cheese is then added on top, which melts under the raclette grill. Great side dishes include boiled or baked potatoes, fresh mushrooms, corn, silver onions, finely chopped peppers, tomatoes, gherkins and much more.

The question of whether raclette meal is eaten directly from the pan or served on a plate is also a matter of taste.

RACLETTE CANDLE LIGHT TO GO

A candle-lit dinner à la Suisse | Art. 2232

The beautiful option of surprising your beloved. With the flexible Raclette Candle Light from Kisag, you can melt cheese everywhere at any time.

Whether you're in the park, in the mountains, at the pool or just relaxing at home – the fun starts with just 4 candles, a match and the Kisag Candle Light raclette set. Of course, you'll also need your favourite raclette cheese.

Thanks to the high-quality coating, your favourite cheese oozes out of the pan perfectly and leaves nothing behind. One thing is certain: there's always something to celebrate!

THE SET CONSISTS OF

- 1 raclette appliance, collapsible
- 1 raclette pan
- 1 wooden spatula
- 4 rechaud candles

THE MOST IMPORTANT AT A GLANCE

- Appliance: Stainless steel
- pan: with non-stick coating
- not suitable for dishwashers

RACLETTE PLATE

Clever & practical | Art. 2321

Aside from fondue, raclette is the perfect meal for long winter days or parties. Anything goes, as long as it tastes good!

Finely chopped meat, bacon, sausages, fish, vegetables or fruit, for instance. Raclette cheese is then added on top, which melts under the raclette grill. Great side dishes include boiled potatoes, baked potatoes, fresh mushrooms, corn, silver onions, finely chopped chillies, tomatoes, gherkins and much more. The question of whether raclette meal is eaten directly from the pan or served on a plate is also a matter of taste.

THE MOST IMPORTANT AT A GLANCE

- cast aluminium – non-stick coating on the top – cast metal on the bottom for heating on the flame
- suitable for the tablecooker Powerfire® (Art. 2310) and the rechaud LongFire (Art. 2340)
- easy to clean by hands

RACLETTE PAN

Practical & good | Art. 2323

Nothing else will stand in the way of your next raclette evening thanks to this replacement pan.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 9 cm, length 11 cm
- 1 raclette pan
- 1 wooden scraper
- with non-stick coating
- dishwasher safe

SPATULAS FOR RACLETTE PLASTIC

Swiss Made | Art. 0189KI

These raclette spatulas are for gently edging the melted cheese out of the pan. They are made of black plastic, are resistant to heat and are, above all, perfectly suited to coated pans.

These spatulas don't leave scratches, keep their shape and don't discolour. They can even remove the cheese that's stuck to the pan. Nothing stays stuck.

THE MOST IMPORTANT AT A GLANCE

- made in Switzerland
- a set of 6 spatulas
- made from heat-resistant polyamide
- dishwasher safe

SPATULAS FOR RACLETTE WOOD

European beech | Art. E40190

Just the thing if you're looking for a sustainable version of the raclette spatulas.

These spatulas don't leave scratches, are made of wood and are perfect for coated pans.

THE MOST IMPORTANT AT A GLANCE

- a set of 6 spatulas
- made from FSC®-certified European beech
- not dishwasher safe

BARBECUE – ANY TIME, ANYWHERE

PORTABLE BBQ STATION FOR INDOORS AND OUTDOORS

Wouldn't it be great to be able to barbecue at any time and anywhere, whatever the weather? With our coated cast aluminium grill pans, the dream of a portable BBQ station becomes a reality. You don't need an electrical socket or lots of space. Simply put the pan on a compatible Kisag rechaud and get sizzling.

Our tip for barbecue experts: in combination with the compatible Kisag table-top cooker, the generously sized RONDO grill pan is perfect for rustling up a host of professional sizzling delights when camping. The duo also make a great portable cooking system for events and the catering trade. For a BBQ season that never ends...

KISAG SAFETY GAS BURNERS

THE SMALL ONE FOR ALL USES

Small but powerful. When it comes to rechauds, the burner is of critical importance. After all, the ingredients in the pan or on the grill need to be brought to a simmer and a sizzle quickly. It should also be possible to maintain the temperature for an extended period of time. All are tasks that the small but great Kisag safety gas burner masters with flying colours.

It fits with most standard rechauds and generates considerably more heat than an ordinary paste burner. With its output of 1 kW and burning time of 90 minutes with a medium flame, it is suitable for any fondue, but can also be used for grilling at the table and for wok-based cookery.

The gas burner is both easy and safe to use at the same time: The flame can be lit and precisely controlled at the touch of a button. And it can be refilled with gas in a matter of moments using the KIGAS gas cans. This leaves even more time for enjoying a relaxed fondue!

SAFETY GAS BURNER

CLASSIC

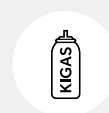

Inox | Art. 8430

All the problems we have faced with the usual paste or spirit burners (long heating time, gel residue, smell, for instance) are now a thing of the past! The safety gas burner's odourless, clean flame can be adjusted with precision. The burner heat capacity is so strong that it can also keep 2 litres of oil warm for a long period of time.

THE MOST IMPORTANT AT A GLANCE

- dimensions: Ø 8.4 cm, height 6.3 cm
- heat output of 1 kW
- fits most conventional rechauds
- also suitable for tabletop grills, wok sets, cookers etc.
- burning time of up to 90 minutes per gas filling (with a medium flame)
- continuous and very finely adjustable, odourless flame

REFILL

Simple and comfortable with the KIGAS refill can – for safe usage, only use original KIGAS gas cans from Kisag (Art. 8400 / 8401)

SAFETY GAS BURNER

DESIGN

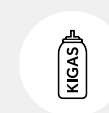

Inox | Art. 8431

It fits with most standard rechauds and generates considerably more heat than an ordinary paste burner. With its output of 1 kW and burning time of 90 minutes with a medium flame, it is suitable for any fondue, but can also be used for grilling at the table and for wok-based cookery.

THE MOST IMPORTANT AT A GLANCE

- dimensions: Ø 8.4 cm, height 6.3 cm
- heat output of 1 kW
- fits most conventional rechauds
- also suitable for tabletop grills, wok sets, cookers etc.
- burning time of up to 90 minutes per gas filling (with a medium flame)
- continuous and very finely adjustable, odourless flame

REFILL

Simple and comfortable with the KIGAS refill can – for safe usage, only use original KIGAS gas cans from Kisag (Art. 8400 / 8401)

SAFETY GAS BURNER

GASTRO

Inox | Art. 8416

The Kisag high performance gastro safety gas burner has a very finely adjustable flame and impresses thanks to its matchless heat output. The gas burner is suitable for cooking and frying at the table for any kind of fondue or raclette, as well as for use with a tabletop grill, or simply for keeping things warm. The Kisag gastro burner is versatile and can be used anywhere without a cable: in gastronomy, at home on the dining table with guests, in the garden or while camping.

THE MOST IMPORTANT AT A GLANCE

- dimensions: Ø 11.8 cm, height 7.8 cm
- heat output of 1.4 kW
- only fits in the ronda rechaud
- ideal for tabletop grills, wok sets, cookers etc.
- burning time of up to 2 hours per gas filling (with a medium flame)
- continuous and very finely adjustable, odourless flame

NACHFÜLLEN

Einfach und bequem mit der KIGAS Nachfülldose – für den sicheren Gebrauch nur Original KIGAS Gasdosen von Kisag verwenden (Art. 8400 / 8401)

BUNSEN BURNER

FOR LABORATORY

For practice and lab | Art. 9500

With the Kigas professional Bunsen burner, you have access to a flame whenever and wherever you need it – with no installation and no connections. The size of the flame can be adjusted freely. The correct temperature for all types of work. The Kisag Bunsen burner can be refilled in a matter of seconds with the clean, completely odourless Kigas from Kisag.

THE MOST IMPORTANT AT A GLANCE

- dimensions: Ø 8.5 cm, height 8 cm
- including 1 KIGAS refill gas 400 ml
- very finely focusable blue flame with various flame sizes possible
- work instruments can be heated very quickly
- heat power 1'300°C
- the flame size can be adjusted freely to up to 30 cm
- burning time of up to 1.5 hours per gas filling (with a medium flame)
- per gas can: 6 fillings

REFILLABLE WITH KIGAS

Simple and comfortable with the KIGAS refill can – for safe usage, only use original KIGAS gas cans from Kisag (Art. 8400 / 8401)

GAZ LIGHTER KISAG

White | Art. 3475

Light candles, fireplaces, barbecues with ease. This little helper belongs in every household drawer. Whether for lighting candles, lanterns or fireplaces. Hard to reach wicks and fuels aren't a problem anymore.

THE MOST IMPORTANT AT A GLANCE

- dimensions: length 22 cm
- ignition stick in white with metal tube
- adjustable flame
- can be refilled with KIGAS

REFILLABLE WITH KIGAS

Simple and comfortable with the KIGAS refill can – for safe usage, only use original KIGAS gas cans from Kisag (Art. 8405)

KIGAS REFILL GAS CANISTER

KIGAS 400 ml | Art. 8400

600 ml | Art. 8401

100 ml | Art. 8405

Each and every safety gas burner from Kisag is filled with only the best energy: KIGAS. Kisag gas is a clean, odourless and non-toxic liquid gas. More specifically, a high-quality blend of butane and propane gas which is particularly suited to hospitality applications thanks to its many advantages. For one thing, the mixture is affordable when costs are calculated per hour of operation. For another, no energy is lost through evaporation. This means that you only pay for what you actually use. The remaining gas remains in the burner and can be used again at any time.

It's simple and fast to refill with the KIGAS can – here's a brief explanation using the Kisag safety gas burner as an example:

First, close the burner valve, then rotate the burner (the burner tank should have cooled completely). Now, press the KIGAS gas can straight downwards into the filling valve. The gas is fed into the tank with a hissing noise. Once the gas starts to overflow in liquid form, the tank is full. Finally, for safety purposes, quickly check with your finger to make sure that no gas is escaping. You're done!

THE MOST IMPORTANT AT A GLANCE

- gas cartridge for many kitchen appliances
- many standardised adapters for filling
- safe mixture
- odourless, clean flame, can be used at up to 3500 metres above sea level
- no losses through evaporation
- high yield
- easy to use
- contents: 600 ml / 400 ml / 100 ml

FONDUE ACCESSORIES

SOMETIMES, IT'S THE LITTLE THINGS THAT COUNT

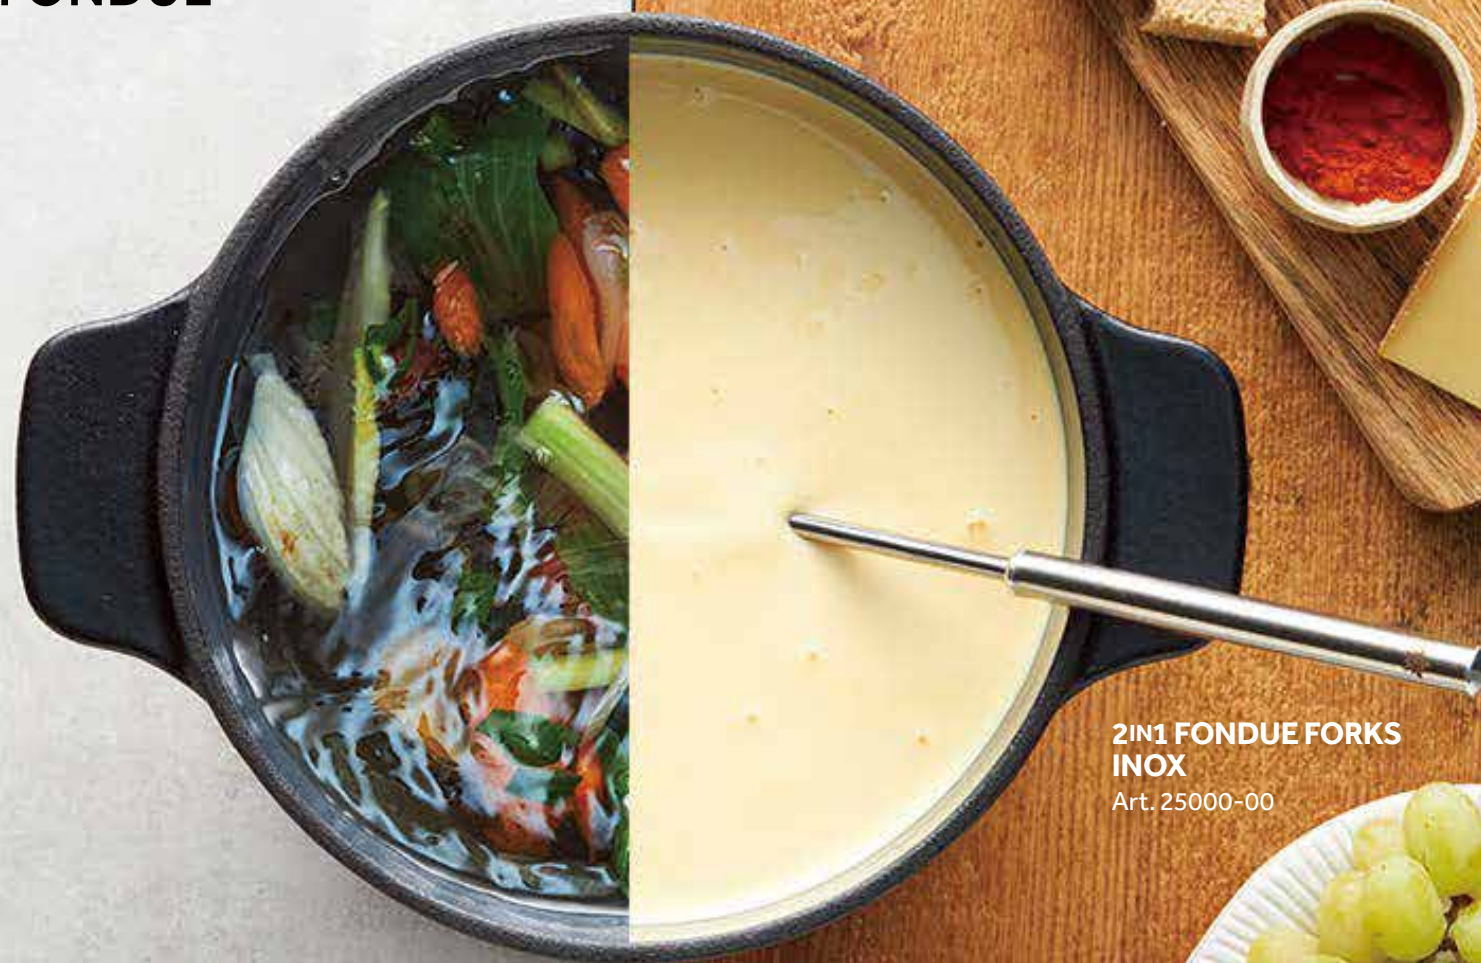

What do you need for a successful fondue besides a rechaud, a fondue pot and a gas burner? The finest ingredients and good company of course. And perhaps a few handy accessories, such as fondue forks that make it easier to skewer the bread or pieces of meat or a heat distribution plate for an even melt. You're all set. Enjoy!

KISAG PEELERS

ULTRA-SHARP PEELERS FOR FRUIT AND VEGETABLES

Fruits and vegetables should be on the menu as frequently as possible. Whether you blanch, fry, steam, glaze, braise, gratinate or boil these fine sources of vitamins – they almost always need to be peeled first. And with the ultra-sharp Swiss made peelers from Kisag, that isn't just easy, it is also lots of fun.

MANY DESIGNS – NO COMPROMISES

What all of the Swiss made peelers from Kisag have in common: due to the mobility of the blade and their ergonomic design, they are suitable for both right and left handed people alike, and adapt to any piece of fruit or vegetable. The stainless steel blade cuts cleanly and is very sharp. Especially practical: with the integrated potato eye remover, sprouting or damaged areas can be removed quickly and easily. After use, these nifty kitchen helpers can go straight into the dishwasher, before helping out again with your next veggie creations. And as tastes differ, the Kisag peelers are available in a variety of different colours and designs, so that everything is quite simply great!

3.0

IN THE
KITCHEN

PEELER UNIVERSAL

Straight blade | Art. 012901KI

With the narrow gap between its sharp blades, the classic peeler is ideal for particularly fine peeling. It is great for peeling potatoes and cucumbers, as well as rhubarb and apples. At the same time, the piece of fruit or the vegetable is peeled so that apart from the peel, as much of it remains as intact as possible. The secret behind the Kisag peelers is the fine, clean blades with extraordinary cutting power. They swivel and can be used for every food you wish to peel. A quality Swiss product, through and through.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- very sharp and swivelling blade
- blade made of rustproof stainless steel
- with potato eye remove
- ergonomic design
- suitable for right-handed and left-handed use
- dishwasher safe

PEELER UNIVERSAL

SWISS CROSS

Straight blade | Art. 012902KI

With the narrow gap between its sharp blades, the classic peeler is ideal for particularly fine peeling. It is great for peeling potatoes and cucumbers, as well as rhubarb and apples. At the same time, the piece of fruit or the vegetable is peeled so that apart from the peel, as much of it remains as intact as possible.

THE MOST IMPORTANT AT A GLANCE

ARTISAN PEELERS

MADE 93% OF WOOD, NATURAL WAX AND GLUCOSE

When buying a new kitchen, the sustainability factor is becoming increasingly important. The necessary materials, their production, but also their subsequent disposal or recycling play a key role in the choice. With our Swiss made «No Plastic» peelers, which are made without any plastics or petroleum-based materials, we are showing that even small kitchen helpers can make a big ecological difference. And that sustainability, functionality, design and quality are by no means mutually exclusive. On the contrary.

INNOVATIVE MATERIALS – EXEMPLARY ENERGY BALANCE

Fresh cucumbers, fine asparagus vegetables, potatoes, carrots or fruit – whenever fruit or vegetables need to be peeled or washed, a peeler is the right utensil. With its sharp stainless steel blade, the organic peeler from Kisag removes peelings from fruit and vegetables quickly and without compromising the vitamins. Its real strength is in its innovative material composition, however: it is made of 93 % FSC-certified German beechwood that comes from environmentally-friendly forests. In combination with natural wax and glucose, the organic peeler is finished so that its functionality is not inferior to conventional peelers in any way. And it does not contain any plastic or other petroleum-based materials. It is heat resistant up to 140 °C, can be put in the dishwasher, and is available with three different shapes of blade (straight, piranha and julienne) and several different colours.

The peelers from the ORGANIC line (without blade) last for years, and can be thrown away along with the household waste. Because they do not contain any fossil raw materials, at the end of their lifetime, they burn on a CO₂-neutral basis. The stainless steel blade can be disposed of for waste metal recycling.

ARTISAN PEELER

NATUR

Straight blade | Art. 013000KI

The «ARTISAN peeler» is made from 93 % beech which comes from sustainable forestry. In combination with natural wax and glucose, the organic peeler is finished so that its functionality is not inferior to conventional peelers in any way. It is heat resistant to 140°C and can be washed in the dishwasher. The only difference: the ARTISAN peeler can last for years and, once its stainless-steel blade has been removed, can be thrown away along with the household waste. As it does not contain any fossil fuels, it burns on a carbon neutral basis. The stainless-steel blade can be disposed of for waste metal recycling.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland

KISAG KITCHEN TOOLS

SMALL, INDISPENSABLE ESSENTIALS – THE RIGHT TOOL FOR EVERY TECHNIQUE

You can never have enough useful tools in your kitchen! After all, it is often the smallest kitchen utensils that make both your life and your cooking easier. Whether it is a universal can opener, a lever corkscrew, a pair of household scissors or the garlic press: our intelligent cooking aids can open and grip, cut, clean and get the best out of your food.

And because they are used almost every day, they are considered basic kitchen accessories.

IN THE
KITCHEN

HOUSEHOLD SCISSORS

Multifunktional | Art. 013601KI

Diese Allzweckschere sollte in keinem Haushalt fehlen. Zum Schneiden von Papier, Schnüren, Kräutern und vielem mehr.

DAS WICHTIGSTE IM ÜBERBLICK

- zum Schneiden von Papier, Kräutern, Verpackungen, etc.
- für Rechts- und Linkshänder
- Griffe aus hochwertigem Kunststoff
- Klinge aus 18/10 Edelstahl
- Farbe: schwarz

HOB SCRAPER

Klein aber oho | Art. 014001KI

Dieser Schaber reinigt nicht nur Ceranfelder sondern entfernt z.B. auch Vignetten bzw. alles, was auf glatten Oberflächen stark haftet – wie z.B. Farbreste auf Fliesen.

Das kompakte und ergonomische Design macht die Reinigung zum Kinderspiel.

DAS WICHTIGSTE IM ÜBERBLICK

- Klinge aus gehärtetem Edelstahl
- inkl. 5 Ersatzklingen
- Farbe: schwarz

KITCHEN

GARLIC PRESS

Effortless crushing | Art. 018601KI

This garlic press allows you to keep your hands clean and free from that garlic smell. Place the garlic clove in the press, push both levers together and a fine garlic mousse is released.

The utensil can also be cleaned quickly and easily. The metal insert can be removed and the complete garlic press can be cleaned in the dishwasher.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- made from a hygienic material which does not affect the flavour of the food
- easy to clean with a removable metal insert
- dishwasher safe
- good lever function – very little force required
- you can continue to press garlic without cleaning in between presses if you're working with peeled garlic cloves
- large chamber, also suitable for large garlic cloves
- ergonomic, modern design
- fits nicely in your hand
- colour: black

GARLIC PRESS
Art. 018601KI

WING CAN OPENER

Compact & simple | Art. 014303KI

Thanks to its compact design, there's room for this can opener in every drawer, as well as in your bag when camping or out on a day trip.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- hardened cutting wheel
- very sturdy design for opening all tin cans
- made of rustproof stainless steel
- colour: black

UNIVERSAL CAN OPENER

Functional & sturdy | Art. 019001KI

You can use this can opener to open all types of cans. The best thing is: you can always have a can opener with you.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- hardened cutting wheel
- very sturdy design for opening all tin cans
- made of rustproof stainless steel
- colour: black

LEVER CORKSCREW

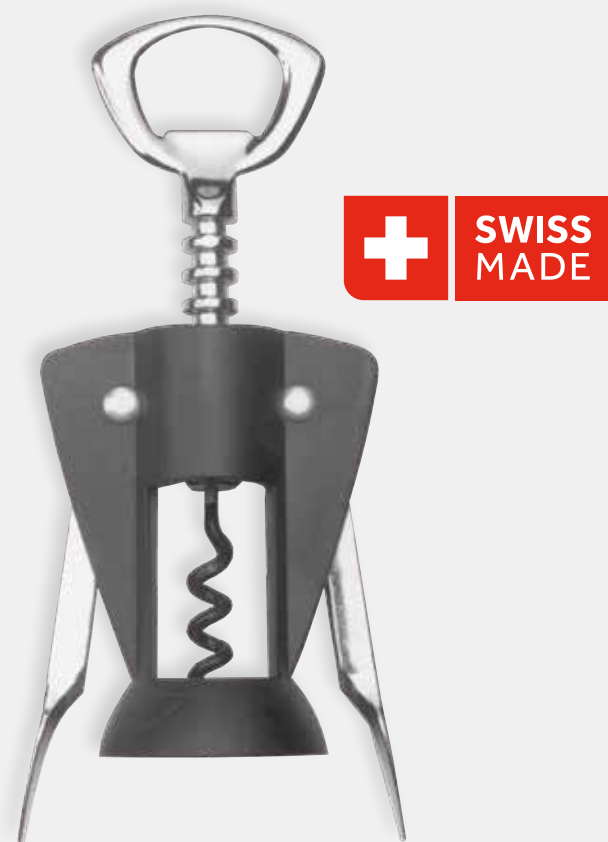

Praktisch & einfach | Art. 017801KI

This classic corkscrew can open bottles with natural and plastic corks with ease.

This is how it works: Place the corkscrew on the bottle and turn the handle. Don't hold onto the levers at the sides. Once the levers are at the top, simply push them down and use the leverage to remove the cork from the neck of the bottle. You're done!

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- Material: cast metal and plastic
- wide housing suitable for all bottleneck sizes
- for all cork types – even plastic and prosecco corks
- ergonomic handle for ease of opening without much force required
- no pieces of cork fall into the wine thanks to the sharp, coated spindle
- colour: black

WAITER'S CORKSCREW

Practical all-rounder | Art. 013805KI

The perfect tool for every wine buff, sommelier, waiter or barkeeper. This corkscrew has everything you need to open a bottle (of wine): Foil-cutting blade: This allows you to cut through the foil on the neck of the wine bottle and simply pull it off.

Corkscrew: Every kind of cork can be removed with ease. Bottle opener: As well as wine bottles, you can also open bottles of beer or remove crown caps without a fuss.

The slim, flat design of this corkscrew means you can fit it into your trouser pocket.

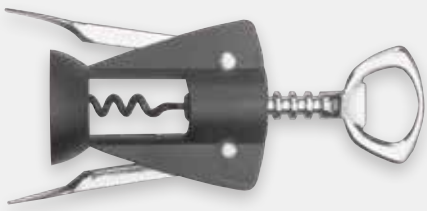

THE MOST IMPORTANT AT A GLANCE

- classic 2-level lever system
- flip-out foil blade with serrated edge
- coated spindle
- includes a crown cap bottle opener
- made of rustproof stainless steel
- colour: black

KITCHEN GADGETS

HEAT RESISTANT

HEAT RESISTANT TO 220 °C – COOL DESIGN, HOT VISUALS

Say goodbye to failed omelettes and pancakes with the pan spatula! This spatula slides under all cooked food with ease, without leaving any marks behind, even on the most delicate cookware. The slotted ladle makes stirring sauces and preparing risotto into a breeze. And the elegant tasting spoon is an all-rounder which cuts a dash for the purposes of both tasting and serving.

With the eyelet at the end of their handle, the ladles, spatulas and spoons can be hung up just where they are needed. Those long searches in the kitchen drawer have finally come to an end!

COOKING LADLE SET

Cook & stir | Art. 018400KI

This set is fundamental in every kitchen. The ladles are robust and hygienic. You can simply put them in the dishwasher when they need to be cleaned. Please note: You should never leave the ladles lying in a hot pan as they may become warped.

THE MOST IMPORTANT AT A GLANCE

1 x Cooking spoon and 1 x Slotted ladle

- Made in Switzerland
- dimensions: width 5.5 cm, length 30 cm
- stylish professional quality
- for pans and utensils with non-stick coatings
- very versatile – for stirring, beating, cooking, mixing
- resistant against grease, oils and acids
- no unpleasant taste
- with a hole for hanging
- Material: Polyamide
- heat resistant up to 220 °C
- hygienic
- dishwasher safe

COOKING LADLE

Cook & stir | Art. 018401KI

Especially suitable for use in coated pots and pans. The hole in the spoon reduces the resistance and makes it easier to mix doughs or risotto, for example.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 5.5 cm, length 30 cm
- stylish professional quality
- for pans and utensils with non-stick coatings
- very versatile – for stirring, beating, cooking, mixing
- resistant against grease, oils and acids
- no unpleasant taste
- with a hole for hanging
- Material: Polyamide
- heat resistant up to 220 °C
- hygienic
- dishwasher safe

TASTING SPOON

Taste & serve | Art. 018801KI

The elegant tasting spoon is an all-rounder which cuts a dash for both tasting and serving.

This spoon is extremely sturdy, heat resistant and perfect for use in coated pots and pans. Its small capacity also makes it ideally suited as a tasting spoon.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 5 cm, length 30 cm
- stylish professional quality
- for pans and utensils with non-stick coatings
- very versatile – for stirring, beating, cooking, mixing
- resistant against grease, oils and acids
- no unpleasant taste
- with a hole for hanging
- Material: Polyamide
- heat resistant up to 220 °C
- hygienic
- dishwasher safe

SERVING SPOON

Stir & serve | Art. 018501KI

A practical and perfect kitchen aid for serving main meals and many other dishes at the table. This heat-resistant utensil is also ideally suited to mixing and blending larger quantities in pots and pans.

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 5 cm, length 33 cm
- stylish professional quality
- for pans and utensils with non-stick coatings
- very versatile – for stirring, beating, cooking, mixing
- resistant against grease, oils and acids
- no unpleasant taste
- with a hole for hanging
- Material: Polyamide
- heat resistant up to 220 °C
- hygienic
- dishwasher safe

3.0

IN THE KITCHEN

COOKING TONG

Flip & serve | Art. 018301KI

The multi-purpose kitchen tongs are ideally suited as a kitchen utensil for turning meat, fish and vegetables in the pan, and as serving tongs for plating up spaghetti, salads and meat at the table.

The ergonomic design of the handles allows you to use them with ease.

THE MOST IMPORTANT AT A GLANCE

KITCHEN GADGETS

SILICONE

KEEP A COOL HEAD WITH THESE KITCHEN GADGETS – HEAT RESISTANT TO 220 °C

The perfect kitchen gadgets for all those who like to cook in non-stick pots and pans.

These silicone kitchen helpers that are made in Switzerland are available in 5 different colours, are heat-resistant up to 220 °C and leave no residue in the food. The flexible silicone reaches into almost every corner and provides for variety in the kitchen with its colour, making cooking even more fun!

Something that all the kitchen utensils made of silicone and stainless steel have in common: they are extremely easy to clean, can be cleaned in the dishwasher, and continue to keep their promise with long-term use. Thanks to the eyelet on their handle, they can be kept at the kitchen worktop so that they are clearly visible and always within reach.

SILICONE BRUSH

23 CM

Brush & marinate | Art. E30750KI

This pastry brush is ideally suited to applying oil and marinades to meat and vegetables, and brushing moulds, baking trays and pans. Even hot pans won't damage this pastry brush thanks to its heat resistance of up to 220 °C. Available in 5 colours!

KITCHEN GADGETS

STAINLESS STEEL & SILICONE

IT'S A MATCH! FROM THE DOUGH SCRAPER TO THE SOUP LADLE, TO THE PASTRY BRUSH

The kitchen gadgets from Kisag made from silicone and with stainless steel handles are characterised by their elegant design and versatility. The top section, which is made from silicone, is especially hygienic, gentle on sensitive surfaces and heat resistant.

The brushes are excellent for designing cakes and baked goods, but also for marinating meat dishes and for spreading grease evenly over hot pans and in baking trays. With the flexible spoon and dough scraper, pans, pots and mixing bowls can be scraped out effortlessly and almost residue-free – and into the very last corner.

Something that all the kitchen utensils made of silicone and stainless steel have in common: they are extremely easy to clean, can be cleaned in the dishwasher, and continue to keep their promise with long-term use. Thanks to the eyelet on their handle, they can be kept at the kitchen worktop so that they are clearly visible and always within reach.

SILICON SPATULA

30 CM

Inox | Art. E30451

The silicone dough scraper with rustproof stainless steel handle stands out thanks to its elegant design and versatility. The top section, which is made from silicone, is especially hygienic, gentle on sensitive surfaces and heat resistant.

With the flexible dough scraper, pans, pots and mixing bowls can be scraped out effortlessly and almost residue-free – and into the very last corner.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 6 cm, length 30 cm
- professional quality
- soft edges to create a neat, smooth surface
- nicely soft and flexible
- very versatile – for baking, removing, ...
- resistant against grease, oils and acids
- no unpleasant taste
- Silicone injected directly onto the handle
- ergonomic 18/10 stainless-steel handle cast as one part (no water penetration)
- heat resistant to 260 °C
- hygienic
- dishwasher safe

SILICON SPATULA

40 CM

Inox | Art. E30452

The silicone dough scraper with rustproof stainless steel handle stands out thanks to its elegant design and versatility. The top section, which is made from silicone, is especially hygienic, gentle on sensitive surfaces and heat resistant.

With the flexible dough scraper, pans, pots and mixing bowls can be scraped out effortlessly and almost residue-free – and into the very last corner.

The long handle makes it perfect for large pots and pans.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 7 cm, length 40 cm
- professional quality
- soft edges to create a neat, smooth surface
- nicely soft and flexible
- very versatile – for baking, removing, ...
- resistant against grease, oils and acids
- no unpleasant taste
- Silicone injected directly onto the handle
- ergonomic 18/10 stainless-steel handle cast as one part (no water penetration)
- heat resistant to 260 °C
- hygienic
- dishwasher safe

SILICON BRUSH

30 CM

Inox | Art. E30701

The length of this brush makes it ideal for grilling. Its distance means that you are far enough away from the hot grill or the heat of the oven. You can apply marinades and glazes without the risk of getting burned.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 4.5 cm, length 30 cm
- professional quality
- doesn't shed
- doesn't wear out
- nicely soft and flexible
- very versatile – for baking, grilling, ...
- resistant against grease, oils and acids
- no unpleasant taste
- Silicone injected directly onto the handle
- ergonomic 18/10 stainless-steel handle cast as one part (no water penetration)
- heat resistant to 260 °C
- hygienic
- dishwasher safe

SILICON BRUSH

20 CM

Inox | Art. E30680

Der Pinsel eignet sich zur Gestaltung von Torten und Backwaren, aber auch zum Marinieren von Fleischgerichten und zum gleichmässigen Verteilen von Fett in heissen Pfannen und Formen.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 3 cm, length 20 cm
- professional quality
- doesn't shed
- doesn't wear out
- nicely soft and flexible
- very versatile – for baking, grilling, ...
- resistant against grease, oils and acids
- no unpleasant taste
- Silicone injected directly onto the handle
- ergonomic 18/10 stainless-steel handle cast as one part (no water penetration)
- heat resistant to 260 °C
- hygienic
- dishwasher safe

SILICON SPOON

30 CM

Inox | Art. E30710

With the flexible spoon, pans, pots and mixing bowls can be scraped out effortlessly and almost residue-free – and into the very last corner.

But even when used as a cooking spoon, this kitchen utensil is the perfect aid thanks to its heat resistance and its compatibility with sensitive and coated surfaces.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 6 cm, length 30 cm
- professional quality
- doesn't wear out
- nicely soft and flexible
- very versatile – for scooping, stirring, scraping out pans and pots without leaving residue,...
- resistant against grease, oils and acids
- no unpleasant taste
- Silicone injected directly onto the handle
- ergonomic 18/10 stainless-steel handle cast as one part (no water penetration)
- heat resistant to 260 °C
- hygienic
- dishwasher safe

KITCHEN GADGETS

FOR BAKING

BAKING IS FUN – PRACTICAL KITCHEN GADGETS FOR ENTHUSIASTIC BAKERS

Almost everyone loves it when the smell of freshly-baked cakes, bread, biscuits or savoury pastries wafts through the kitchen. And baking these tasty creations yourself is just as pleasant. In addition to the correct ingredients and quantities, however, getting the right results is a question of technique. And the baking accessories from Kisag will help you to achieve that in no time.

With our specialist kitchen gadgets for enthusiastic bakers, preparing and decorating sweet or savoury baked creations is quite simply great fun.

The Kisag dough scrapers, pastry brushes, dough spatulas and piping bags, with their various attachments, are particularly useful. And since creativity and individuality play an important role in baking, just as they do in cooking, our Swiss made baking helpers are available in various designs (with reinforced silicone, stainless steel and wooden handles), colours and sizes.

PIPING BAG PROFESSIONAL

Decorate like the professionals | Art. E30129

This cotton piping bag is suitable for all measurements and doesn't leak, thanks to its multi-layered cotton material.

1 x Cotton piping bag including 4 nozzles

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 17 cm, length 30 cm
- also stays flexible after frequent hot washes
- heat-sealed seam
- with hanger
- for cake decoration, creams, sauces, mashed potato
- for decorating and garnishing

CARE INSTRUCTIONS

- Clean by hand in hot, soapy water
- rinse out several times under running water
- hang up to dry
- please only use again once the piping bag has dried off completely

DISPOSABLE PIPING BAGS

Extremely easy to use | Art. E30509

Chocolate, cream, icing, buttercream, whipped egg whites, chocolate glazes or mashed potato – your creativity will know no bounds with these disposable piping bags made from extra strong plastic.

10 x Plastic piping bags including 3 nozzles

THE MOST IMPORTANT AT A GLANCE

- dimensions: length 38 cm
- extra strong plastic quality
- decorate cakes and desserts
- embellish pralines, cupcakes and cakes
- for preparing potato croquettes

HOW TO USE

- insert the nozzle of your choice into the disposable piping bag
- fill the piping bag with the ingredient
- twist the piping bag at the top
- squeeze the ingredient onto the desired surface using the base of your thumbs
- after decorating, remove the nozzle and dispose of the piping bag

DOUGH SCRAPER SET

Set of 3 | Art. E30146

Portioning, scraping out, decorating

The versatile helper for baking and cooking. This set includes the right tools for portioning out dough, decorating cakes or scraping dough out of the bowl.

3 x dough scrapers

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- flat edges for shaping and smoothing
- split, cut, shape, lift, scrape out, glaze and decorate just as you wish
- dishwasher safe

MATERIAL

- Plastic
- not heat resistant
- hygienic
- dishwasher safe

PASTRY SPATULA MINI

The perfect kitchen aid | Art. E30440

With this little helper, you can even scrape out small, narrow glasses without leaving any residue.

1 x Mini dough scraper

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 3.2 cm, length 25 cm
- professional quality
- the soft side can fit into the round parts of bowls and pans, the hard side is suitable for creating neat, smooth surfaces
- no unpleasant taste
- the top and handle can be taken apart for cleaning
- with hole for hanging

MATERIAL

- Top section: PE (polyethylene)
- Handle: polyamide
- not heat resistant
- hygienic
- dishwasher safe

PASTRY SPATULA STANDARD

25 CM

The classic for baking | Art. E30400

Perfect for smoothing and scraping out dough.

1 x Standard dough scraper

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 4.7 cm, length 26 cm
- professional quality
- the soft side can fit into the round parts of bowls and pans, the hard side is suitable for creating neat, smooth surfaces
- no unpleasant taste
- the top and handle can be taken apart for cleaning
- with hole for hanging

MATERIAL

- Top section: PE (polyethylene)
- Handle: polyamide
- not heat resistant
- hygienic
- dishwasher safe

PASTRY SPATULA JUMBO

32 CM

Extra-large & versatile | Art. E30450

This extra-large dough scraper can even scrape gooey masses from large and deep containers, leaving almost no residue whatsoever. But it's also the perfect companion in professional kitchens when it comes to spreading doughs, creams and pastes

1 x Jumbo dough scraper

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- dimensions: width 4.7 cm, length 32 cm
- professional quality
- for use in extra-large containers
- the soft side can fit into the round parts of bowls and pans, the hard side is suitable for creating neat, smooth surfaces
- no unpleasant taste
- the top and handle can be taken apart for cleaning
- with hole for hanging

MATERIAL

- Top section: PE (polyethylene)
- Handle: polyamide
- not heat resistant
- hygienic
- dishwasher safe

PASTRY SPATULA SET

MINI & STANDARD

Set of 2 | Art. E30408

The mini and standard dough scrapers combined in one set.

- 1 x Mini dough scraper (25 cm)
- 1 x Standard dough scraper (25 cm)

THE MOST IMPORTANT AT A GLANCE

- Made in Switzerland
- professional quality
- the soft side can fit into the round parts of bowls and pans, the hard side is suitable for creating neat, smooth surfaces
- no unpleasant taste
- the top and handle can be taken apart for cleaning
- with hole for hanging

MATERIAL

- Top section: PE (polyethylene)
- Handle: polyamide
- not heat resistant

KITCHEN GADGETS

WOODEN

SUSTAINABLE KITCHEN ACCESSORIES AND CHOPPING BOARDS MADE FROM FSC-CERTIFIED EUROPEAN BEECHWOOD

Ecological kitchen accessories from Kisag bring warmth and cosiness to your table.

The kitchen helpers made from FSC® certified European beechwood are characterised by their particularly fine-pored, smooth surface and long service life. The light colouring of the wood and beautiful grain provide an exciting contrast to the stainless steel and other materials found in the kitchen. The wooden utensils are handmade and have been treated with natural oil to bring out the texture of the grain.

KITCHEN GADGETS ARTISAN

SUSTAINABLE ACCESSORIES

Whether for special occasions or everyday use, our kitchen utensils made of quality, FSC®-certified european black walnut and maple wood are sure to turn heads. And are perfect if you want to add a touch of extra warmth to a minimalist setting. Due to the individual grain, each product is unique; a genuine one off. With their contemporary aesthetics, our wooden accessories designed in Switzerland also make the perfect sustainable gift for gourmets.

1 Artisan product = 1 tree

KISAG SUPPORTS PLANT-FOR-THE-PLANET

We've teamed up with the **«Plant-for-the-Planet»** organisation to plant one tree for every ARTISAN product sold. This cooperation allows us to support reforestation projects around the world. **Plant-for-the Planet** has already planted some 14 billion trees in 193 countries – the long-term goal is one trillion. We also support the **Plant-for-the-Planet Academy** where children teach other children about global warming and become ambassadors for climate justice.

ARTISAN CUTTING BOARD M

Use again and again | Art. 35304-00

Whether for chopping or slicing, the durable work surface of our solid chopping boards made of FSC®-certified european black walnut wood are ideal for daily use in the kitchen. The surface of the wood is still supple enough to protect the blades of high-quality knives. Practical details: with its recessed grips, the board can be easily transported from work surface to table. Not only are our wooden boards suitable for food preparation, they also make a stylish surface on which to present and serve food.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 22 cm, length 32 cm, height 1.7 cm
- Material: FSC®-certified european black walnut wood (Serbia)
- with recessed grips and juice groove
- non-toxic
- safe to use with food
- treated with natural oil
- 100 % recyclable
- Cleaning: after use, simply rinse by hand with lukewarm water and mild detergent. Not suitable for dishwasher use.

Art. 35303-00

ARTISAN CUTTING BOARD L

Use again and again | Art. 35304-00

Whether for chopping or slicing, the durable work surface of our solid chopping boards made of SC®-certified european black walnut wood are ideal for daily use in the kitchen. The surface of the wood is still supple enough to protect the blades of high-quality knives. Practical details: with its recessed grips, the board can be easily transported from work surface to table. The larger model, the Artisan Cutting Board L, features a juice groove for collecting escaping juices from meat, fruit or vegetables, keeping your surfaces clean as you work. Not only are our wooden boards suitable for food preparation, they also make a stylish surface on which to present and serve food.

WOOD CARE & PROTECTION

FOR BEAUTY THAT LASTS

Our food-safe Swiss-made wood oil has been developed to help you enjoy your new, unique handmade item for many years to come. It is the ideal care product for all wooden utensils, especially those in your kitchen. The oil provides deep protection, brings out the natural grain and, with regular use, prevents water penetration and discolouration as well as the formation of cracks and splits. Shape and colour variations are completely natural and make every part unique.

WOOD CARE DO'S & DON'TS

- Clean wood with detergent and a brush
- Do not put in the dishwasher
- Oil the wood regularly
- Use a cloth to apply the oil
- Use only on completely dry wood
- Ideally, leave on overnight
- Remove excess oil with a paper towel
- Sharp objects can leave scratches
- Moist foods may cause wood discolouration
- Never immerse or soak the wood in water

KISAG HAND BLENDERS

AS STRONG AS A SHIP PROPELLER – BLENDING AND PURÉEING AT ITS BEST

The Kisag hand blenders are powerful and robust enough to easily compete with a much bigger food processor. And when other hand blenders have long since gone into idle mode, the Kisag models offer a strong performance for an extended period of time. With their powerful motor and maximum operating time of 8 to 15 minutes (depending on the appliance), they are suitable for continuous operation – and ideally suited for use in the catering trade.

The appliances are also powerful enough for chopping fruit, vegetables, herbs and nuts. All of the models are ergonomically designed, and can be operated using just one hand. Two different speed settings allow you to process foods that have different consistencies and to blend them either finely or coarsely.

GOES ON FOREVER – THAT'S SWISS QUALITY

There are certain kitchen utensils that you can go without. A hand blender should not be missing from any well-equipped kitchen, however. A hand blender allows you to prepare numerous excellent dishes as if by magic. Hand blenders also have an advantage over standalone food processors: the food can be blended directly in the pan or a bowl without having to move it around. With their exceptionally powerful mixing output and multifunctional all-purpose blade, the hand blenders from Kisag are versatile, and great for blending and puréeing, for whipping cream, for making creamy soups and sauces, and for making fruit toppings and smoothies, pesto, salsa, hummus, mayonnaise and vinaigrettes. Once you've got used to this ingenious kitchen appliance, you'll never want to go without it again.

- for cans of up to 56 cm in height

VERMICELLE PRESS

Fine desserts in no time at all | Art. 7017

The Kisag press is ideal for professional use in gastro-kitchens and confectioners. Prepare fresh and delicious vermicelles in a quick, clean manner.

HOW DOES IT WORK?

1. Feed the vermicelles mass into the filling tube.
2. Swing the filling tube back into place.
3. Press it out! You're done!

Easy, straightforward and convenient.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 26 cm, depth 32 cm, height 88 cm
- solid cast aluminium and stainless steel
- easy to clean: The press plate and filling tube can be removed
- swing-out filling tube
- surface coating safe for contact with food
- 2 replaceable shape discs for portions or patisserie
- 8-10 portions per filling

HAND VERMICELLE PRESS

REVOLVING STAND FOR GLASSES

4.2

GASTRO
KITCHEN UTENSILS

Simple and creative | Art. 7018

Tasty vermicelles or spaghetti ice cream to rival the ice cream parlour? Not a problem with the vermicelles hand press.

THE MOST IMPORTANT AT A GLANCE

- dimensions: width 24 cm, depth 7.5 cm, height 25.5 cm
- weight : 1.57 kg
- 2 shaping inserts: 2 and 3 mm
- fill quantity 800 g
- stainless steel
- dishwasher safe

Compact and practical | Art. 4404

These glass holders were designed especially for gastronomy. They are well suited to restaurants, cafés, bars as well as for canteens and hospitals.

The modular design of the glass holders allows you to reconstruct them at different heights and distances in moments. Each platform can be rotated conveniently to grant access to up to 200 glasses.

However, it isn't just the functional qualities which give the glass holders that special something. Thanks to the solid structure and its elegant chrome steel and glass materials, the glass holders also give the counter some décor.

THE MOST IMPORTANT AT A GLANCE

- individually adjustable 49 cm, 71 cm or 94 cm
- Glass plates: 8 mm thick
- rotating system with double ball bearing
- threaded rods: chrome steel

KISAG HISTORY

INNOVATIVE IDEAS FOR THE KITCHEN – SINCE 1945

Behind the foundation of Kisag AG was a creative mind with a strong pioneering spirit. When Walter Kissling founded Kisag AG in Bellach, Solothurn, Switzerland in the year 1945, he had no idea that his innovative ideas would have a lasting impact on life in many Swiss households over several generations.

Walter Kissling started out recycling aluminium waste to produce pure aluminium. He used this, in turn, for product developments in the household area. In the adjoining foundry, the entrepreneur manufactured cutters for French fries, fruit presses, potato peelers and thin-walled cast aluminium pans. At that time, when the technology in the field of kitchen appliances was still in its infancy, this was a real high-tech product.

Thanks to the inventive talent of Kissling, further new developments soon followed: In the early 1950s, the production of pressure cookers with patented pressure relief valves began. Among other developments, this was followed by frying pans with built-in thermometers, the Kisag whipper, which was patented in 1958 for the production of whipped cream with a charger system that was developed in-house, and a patented gas burner for rechauds and laboratories.

The whippers quickly became a best seller and have sold millions of units every decade since. For many people, this saw the «Kisag whipper» becoming the epitome of the whipper.

This product line – due to its wide range of applications in the kitchen – remains an important division of Kisag to this day. In addition to metal products, the use of plastics was increased, and the range of Kisag was extended to include can openers, spoons, peelers, dough scrapers and several additional practical kitchen helpers. Kisag now exports its products to some 20 different countries, and also manufactures for other well-known brands as an OEM manufacturer.

FROM A FAMILY BUSINESS TO A COOPERATIVE FOUNDATION

At the beginning of the 1980s, the family business launched by Walter Kissling 75 years ago was taken over by Albert Brüngger and continued to be managed in the second generation by Urs Brüngger. With the sale of Kisag to VEBO cooperative foundation, an optimum succession arrangement was found for every party in 2017. Ever since, Kisag has continued to operate unchanged, and all the local jobs have been retained.

75 YEARS OF KISAG

When Walter Kissling founded his metal foundry in Bellach in 1945, the future of his business was anyone's guess. Today, some 76 years later, someone cooks, prepares, roasts or refines food using products from Kisag in almost every household in Switzerland. Kisag has become established as a brand that stands for reliable quality and useful inventions in the kitchen, and not just in Switzerland.

And one which makes a wide range of kitchen utensils, from dough scrapers and fondue rechauds through to whippers and hand blenders for professional gastronomy. The fact that we have been able to follow this path is largely thanks to our employees, our "company family", who make such a big contribution to the success of our business. We are therefore taking the opportunity of this wonderful anniversary to say THANK YOU. THANK YOU to all of those who have, and will, continue to accompany us on this journey. And those who support us every day anew with their words and deeds as well as their many valuable ideas.

We are already looking forward to the next 75 years!

Thank you!

SWISS MADE

KISAG STANDS BY THE PRODUCTION LOCATION OF SWITZERLAND...

... and is convinced that it can be maintained with high-quality, innovative products and a first-rate price-performance ratio. The company now works with some 100 suppliers from Switzerland, Europe and other countries.

The assembly of individual parts for appliances such as mixers or gas burners for fondue rechauds continues to be carried out at the facilities of the company in Bellach. Just like the series production of many kitchen utensils and the development of our products. This is very important, because it is the only way to ensure the consistently high quality of our products.

As a production location, Switzerland not only functions as a clear seal of quality, but is also of decisive importance for our CO2 balance, as we can avoid extensive import and transport routes as far as possible. A conscious, resource-saving approach to the environment is a matter of course for us. For this reason, 100 % of the total electricity consumption of Kisag is covered by Swiss hydro power.

KISAG & VEBO

SOCIAL RESPONSIBILITY

Since 2017, Kisag has been part of the VEBO Group, which is committed to the training of people with disabilities and their inclusion in the workplace.

Our goal is to further expand protected jobs in the production, assembly and packaging of kitchen appliances, making it easier for people with disabilities to enter the labour market. In addition to inclusion, sustainability is also close to our hearts. When developing our products, we choose environmentally friendly materials, pursue low-emission manufacture and always take future recycling into account.

HOW TO USE

HOW TO USE VIDEOS ON VIMEO.COM

Our Kisag Whippers are easy to use. See our instruction clips by Rolf Caviezel to learn how it's done.

General Terms and Conditions of Kisag AG

Terms and Conditions of Sale and Service

1. General

- 1.1.
- These General Terms and Conditions (hereinafter referred to as «GTC») form an integral part of all contracts on the sale, deliveries, and other services (including repairs) between Kisag AG (hereinafter referred to as «Kisag») and the customer or their legal successor, respectively (hereinafter referred to as «Customer»). They shall apply when the Customer acquires products of Kisag or uses services.
- 1.2.
- The Customer may not transfer to third parties any rights and duties arising from any contract, unless Kisag has given its written consent.
- 1.3.
- The GTC in the version applicable on the date of ordering shall apply. Kisag may make amendments to these GTC at any time, the new version of the GTC shall apply to all contracts concluded after they took effect. The applicable version of the GTC of Kisag will also apply to additional and/or subsequent orders of the Customer.
- 1.4.
- The GTC and other provisions of the Customer as well as understandings deviating from these GTC shall not be binding upon Kisag, unless they were explicitly approved by it, in writing. These GTC shall even apply exclusively, if Kisag performs the delivery or service without reservations in full awareness of opposing conditions or conditions deviating from these GTC.

2. Offer and Contract Conclusion

- 2.1.
- All offers of Kisag and the information, figures, etc. contained in price lists, printed materials, brochures and on the internet shall be non-binding, unless Kisag provides an explicit offer. Deviations from ordered products, in particular, regarding quality, colour, dimensions, etc. shall remain reserved.
- 2.2.
- Any offer prepared by Kisag shall be valid for 30 days.
- 2.3.
- If the Customer places a purchase order (by mail, phone, etc.), it shall apply as a request and shall be binding until it is accepted or not accepted by Kisag.
- 2.4.
- The contract will be deemed to be concluded when Kisag accepts the request. Stock goods and small orders will be accepted directly by sending the ordered product. Normally, no written order confirmation will be sent. A written order confirmation will be sent for major orders and special purchase orders.

3. Prices and Payment Terms

- 3.1.
- All prices are stated in Swiss Francs, unless otherwise specified. Prices on the gross price list for private customers are quoted including the value added tax. Prices on the net price list are specified excluding any value added tax. Ancillary costs such as e.g. shipping, packaging, transport or insurance costs, customs, export, transit, import and other costs shall be borne by the customer. The prices specified in the order confirmation shall apply, apart from typos, printing or calculating errors.
- 3.2.
- Kisag may change any and all prices, at any time, without announcement.

- 3.3.
- Unless otherwise agreed, a payment term of 30 days net from the invoice date shall apply in case of purchases on account. Kisag reserves the right to request a pre-payment. In case the invoice is not paid in due time, Kisag explicitly reserves the right to withdraw from the contract, to request a damage caused by delay and/or to assert claims for damages. Furthermore, Kisag shall be entitled to suspend the rendering of any and all services under existing contracts with the Customer and to block the Customer. Any set-off by the Customer is prohibited, unless the claims are recognised by Kisag, in writing, or were found to be valid by a court.

4. Terms and Periods of Delivery

- 4.1.
- Kisag shall be entitled to engage subcontractors and vicarious agents to perform the contractually agreed services. Partial deliveries are permitted and shall be received by the Customer. Kisag is only obliged to make deliveries from the existing inventory of goods. Kisag reserves the right to make a restriction of the delivery quantity for a specific product.
- 4.2.
- Kisag will inform, in writing, about items which can no longer be delivered or whose quantity and scope exceed the normal production rhythm. The right to make excess or short deliveries of the agreed quantity for technical reasons remains reserved.
- 4.3.
- Delivery periods are no fixed dates and a precondition is that the Customer meets their contractual obligations. Delivery periods are non-binding for Kisag, unless otherwise agreed. Any and all claims of the customer, including withdrawal from the contract for delayed delivery shall be excluded. Kisag shall in all cases not be liable for delays in delivery caused by force majeure or those attributable to third-party manufacturers or their logistics partners. Strike, lock-out, interventions by authorities, energy or raw material shortages, transport bottlenecks, operational or delivery impairments not attributable to Kisag, such as those caused by e.g. epidemics, pandemics, fire, water and machine damage and all other impairments which were not culpably caused by Kisag from an objective perspective shall be deemed to be equivalent to force majeure.

5. Transfer of Use and Risk, Transport Insurance

- 5.1.
- Unless explicitly otherwise agreed, benefit and risk will be transferred from Kisag to the Customer upon provision of the goods for shipment. The delivery will thus be made at the risk of the Customer. Kisag will not conclude any transport insurance, unless the Customer makes a written request and bears the relating costs. If the shipment of the goods is delayed or becomes impossible for reasons not attributable to Kisag, the goods will be stored at the expense and for the risk of the Customer.
- 5.2.
- Any and all claims for transport damage shall be asserted exclusively with the relevant forwarder.

6. Retention of Title

- 6.1.
- The goods will only become the property of the Customer after the full payment of the purchase price and of any ancillary costs and default interest.
- 6.2.
- In case of a pledge, arrestment or retention, the Customer must notify the collection or insolvency office about the property of Kisag and notify the latter immediately. Kisag shall be authorised to have the retention of title registered in the competent register at the Customer's expense and without their cooperation.

7. Warranty, Rights from Defects and Liability

- 7.1.
- All data, information and recommendations relating to the goods or the samples provided by Kisag will neither mean an explicit nor an implicit warranty for their suitability, customary quality, description or suitability for the purpose intended by the Customer.
- 7.2.
- The quality of the received goods shall be verified by the Customer immediately after their receipt. Defects or deviations from the purchase order shall be notified to Kisag, in writing, within five work days after the delivery by stating the exact complaint. Insufficient or delayed notices of defects will result in an ineffectiveness of the rights from defects. In case of an omission, the delivery and service shall be deemed accepted.
- 7.3.
- No warranty shall apply if the Customer changes the products themselves or has them changed by third parties or is unable to evidence that the defects complained about were caused by such changes, neither fully nor in part. No warranty shall apply if the Customer fails to use the product in a proper manner.
- 7.4.
- Kisag shall be entitled to remedy any defects which were complained about in due time (repair) or to replace the defective product (real replacement). No new claim for warranty shall apply to the goods repaired or replaced by Kisag.
- 7.5.
- Otherwise, any and all claims for warranty, in particular, annulment and reduction shall be excluded, such as the liability of Kisag for direct or indirect damage arising from the use of the goods, insofar as permitted by law and unless explicitly specified in these GTC. The same shall apply to the replacement of any damage incurred, directly or indirectly, by the Customer which arose from a defective delivery.
- 7.6.
- Kisag shall be liable solely for direct damage caused by an intentional or grossly negligent act performed by Kisag. Any liability of Kisag for direct damage in case of slight fault shall explicitly be excluded, notwithstanding any mandatorily applicable legal provisions. Any liability of Kisag for indirect damage, damage caused by negligence or for subsequent damage shall be excluded. The liability for vicarious agents of Kisag is excluded to the extent permitted by law.
- 7.7.
- Kisag will not assume any liability nor warranty for the correctness, scope, topicality of the information, products, and services of third parties provided and for any possible copyright violations of third parties.
- 7.8.
- The amount of any liability of Kisag shall in any case be limited to the amount of the agreed price for the relevant contract.

8. Brand, Property Rights, and Product Modifications

- 8.1.
- The trade name, brand and other product identifications of Kisag must not be removed, obscured or otherwise modified without Kisag's explicit written consent.
- 8.2.
- All tools are the property of Kisag, unless otherwise agreed.

9. Data Protection

- 9.1.
- Kisag undertakes to comply with the applicable rules of data protection. The Customer explicitly agrees that Kisag stores, edits, assesses any product-related and personal data pursuant to the legal provisions and that they may transfer them to affiliated companies during order handling and to any third-party companies engaged for order handling.
- 9.2.
- Kisag reserves the right to verify the data of the Customer for correctness and to reject any delivery of goods, if appropriate.

10. Premature Termination of the Contract

- 10.1.
- If any delivery of Kisag is impossible for reasons attributable to the Customer or if the latter violates any legal or contractual obligation, Kisag shall be authorised to withdraw from the contract, without a compensation. Kisag shall, in such case, be fully indemnified, including a compensation for lost profits.
- 10.2.
- In case of a premature termination of the contract by the Customer, Kisag shall be fully indemnified in any case, incl. compensation for lost profits.

11. Final Provisions

- 11.1.
- If any provision of these GTC proves to be invalid, ineffective, or unrealisable, the validity, effectiveness, and realizability of the other provisions of these GTC shall remain unaffected. In this case, the parties undertake to replace the invalid, ineffective or unrealisable part of the GTC by a valid, effective and realisable regulation the contents of which comes as close as possible the GTC.
- 11.2.
- Place of fulfilment and place of jurisdiction shall be Bellach (Switzerland). Kisag explicitly reserves the right to assert its claims also before any other competent court. Swiss substantive law shall apply exclusively, to the exclusion of the conflict-of-law rules of the international private law (in particular the Vienna Sale of Goods Convention of 11 April 1980 and the Hague Convention on the law applicable to the international sale of goods as amended on 15 June 1955).

Shipping Terms

Free shipment above an order value of CHF 80. A small quantity surcharge of CHF 9 will apply to orders with a goods value below CHF 80.

Products ordered without specifying a desired delivery date will generally be dispatched with A Post the same day or the next working day after order receipt .

For all other information, please refer to our general terms and conditions.

Disclaimer

Kisag AG assumes no liability with regard to the correctness, accuracy, timeliness, reliability and completeness of the information published. All offers are non-binding. Kisag AG expressly reserves the right to change, supplement or delete parts or the entire offer without prior notice or to discontinue publication temporarily or permanently.
